### Future plans

This summer I am heading back to New Zealand to film some more NZ Skier TV, but predominantly to study film, photography and design in Wellington. I intend to use this to further my skiing; designing graphics for Faction skis, using the photography and film to increase the awareness of women's skiing and document trips.

At present I am planning for next winter. December and January spent travelling through North America, filming and shooting. Then head to Japan to shoot and back to Europe or North America for end of season competitions in Big Mountain and freestyle.
